Merrimack Internships

Internships at Merrimack are unique and comprehensive. Our Interns come from a variety of majors and degree programs from universities around the world. The learning platform we provide also includes scientific forums, journal clubs, and networking events to support professional development. Our Interns are fully integrated with the Merrimack family.

NOW HOSTING

Summer Interns - 3mo
Long Term Interns - 6-12mo
PhD Interns - 1-2yrs
Co-op 6mo

Recent PhD Grad?

In our adjunct post-doctorate program we hire PhD graduates and provide them with an opportunity to enhance their research skills in basic, translational and clinical programs. In our highly collaborative research environment, we expect postdoctoral graduates to make significant contributions to their project, including the publication of their research findings.
